## MS Project – Intermediate

In the Microsoft Project Introduction course, delegates used project management skills to create a project plan. This course will build upon that knowledge and give you the opportunity to work with a project plan once it has entered the project implementation phase.

### Duration & Price

Duration: 1 day

Delivery mode: This programme is available In-Company

### Dates & Locations

*In-Company training programmes are customised for your organisations specific needs. Most In-Company training is now delivered virtually.*

### In-Company Training

### What's covered?

- Create a Project Plan Template
- Create a Custom Combination View
- Make Custom Views Available to Other Project Plans
- Share Resources
- Create a Master Project Plan

### Who should participate?

Delegates will get the most out of this course if they want to learn how to apply Microsoft Office Project Professional during the implementation phase of a project. Delegates should ideally have come through the Introduction Course or be familiar with how to set up a Microsoft Project.

## What will I learn?

Participants achieve the following learning outcomes from the programme;

- Sort and find tasks and resources
- Apply task and resource tables
- Customise tables and fields
- Develop 'Traffic Light/RAG' reports in the Gantt Chart
- Set task and resource filters
- Work with resource scheduling – shortening/changing the schedule
- Understand the work formula, effort driven scheduling
- Find over-allocated resources and how to resolve
- Resolve conflicts – working with slack time
- Use MS Project resource levelling
- Assign resource rate changes and costs, fixed costs
- Save with a baseline
- Change the schedule – viewing project statistics
- Track progress
- Update tasks / project manually and 'as scheduled'
- Track actual cost and actual work
